

Choice of ingredients

Choice of ingredients

Quality freeze-dried or dried ingredients

Our expert staff selects freeze-dried or dried ingredients depending on the use and rehydration needed to give great **taste and visual, nutritional and functional qualities** to your recipes.

Careful selection of raw materials

We pay particular attention to select **the best ingredients** from **renowned suppliers** to find the perfect balance between flavour, texture, functionality and nutrition.

We source our products locally or at least nationally in order to limit our impact on the environment.

We aim to:

- guarantee regular and reliable sourcing through strategic control over delicate raw materials.
- reveal the authentic character of the ingredients to highlight their nutritional qualities and taste.
- Remove or reduce the use of saturated fats, glutamate, colouring and flavouring in our recipes.
- Select GM-free ingredients.

New recipes are developed by professional cooks whose experience, creativity and technological knowledge allow us to select the best ingredients.

Our recipes really stand out from the crowd!
